VELUX roof light with upstand **CVP ----- --73U + ISD ----- 0110**
intended to be used for light transmittance for flat and/or inclined roofs

Edition: 01 Feb 2011

Essential performance characteristics

Resistance to upward load	UL 1500
Resistance to downward loads	DL 2500
Reaction to fire	Class E
Resistance to fire	npd
External fire performance	npd
Water tightness	pass
Impact resistance, Small hard body	pass
Impact resistance, Large soft body	SB 1200
Thermal transmittance	1,4 W/(m²K)
Direct airborne sound insulation	27 dB
Luminous transmittance	0,21
Air permeability	Class 4
Durability	npd

npd = no performance determined
